CASTERS

Heavy Duty Casters

SCAFFOLDING CASTERS

SHOCK-ABSORBING CASTERS

Dalrada Precision's heavy-duty casters are designed for durability and strength. These high-capacity casters provide excellent support for the heaviest loads and are ideal for a variety of applications where items must be moved quickly and safely.

Available components include wheels, locking frames, fully-assembled units, and more.

Light Duty Casters

FURNITURE CASTERS

Light-duty casters offer a great selection of sizes and construction and are the perfect solution for beds, chairs, dollies, desks, and tables, among other common household and office furniture pieces.

The construction of each caster varies by model and popular materials in this category include rubber, plastic, and nylon, with sturdy aluminum and zinc-plated tops and frames.

Institutional Casters

MEDICAL CASTERS

Appropriate for a wide range of settings and available in several sizes, construction, and load capacities, institutional casters are a staple of the warehouse and medical industries.

Dalrada Precision's lineup of institutional casters can handle both light and heavy-duty usage and they're built with the strongest high-quality components that are capable of supporting hospital equipment, utility carts, heavy frames and fixtures, and much more.

Industrial Casters

(American Standards)

Dalrada Precision is pleased to offer heavy duty industrial casters designed for longevity with durable construction for the American market. These wheels and frames feature sturdy components and are ideal for a variety of purposes.

These industrial casters and caster sets make moving even the largest objects easy and worry-free with plain or roller bearings and soft or hard wheels, depending on the application.

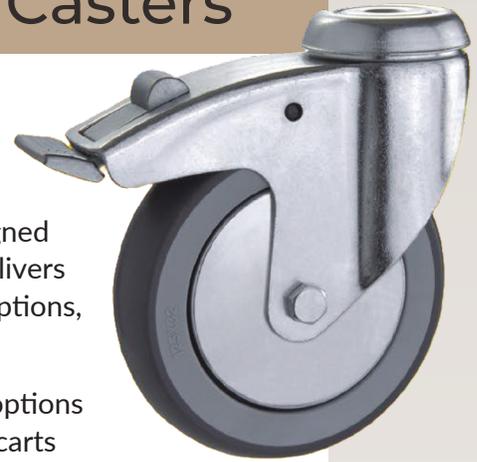

Light and Medium Duty Casters

(European Standards)

With a large selection of light and medium duty casters engineered to meet European standards and specially designed to provide multiple mounting options, Dalrada Precision delivers a variety of wheel sizes and construction materials, brake options, and bearing types.

These casters are ideal for utility applications and popular options for dollies and furniture trucks, shelving carts, and nursery carts for use in warehouses and distribution centers.

Trolley and Trolley Casters

(European Standards)

Dalrada Precision's European standard trolley casters are the perfect casters for moving small equipment and furniture. Made from a variety of high-quality materials and durable construction, each caster is built to last and can withstand light to medium loads for home or office use.

Also available is a selection of platform hand trolleys that make transporting items simple and easy.

Industrial Casters

(European Standards)

Dalrada Precision offers heavy duty industrial casters designed for longevity with durable construction specifically for the European market. These wheels and frames feature sturdy components and are ideal for a variety of purposes.

These industrial casters and caster sets make moving even the largest objects easy and worry-free with plain or roller bearings and soft or hard wheels, depending on the application.
